Qcells Q.HOME CORE
10 kWh battery + inverter

For California homes that already have solar

NEM 3.0 changed the math. *A battery fixes it.*

1 Store it.
Midday solar charges your battery, not the grid's low export credits.

2 Use it.
Power your home through the 4–9 pm peak, when rates are highest.

3 Pay less.
One NEM 3.0 home's monthly bill:*

$141 → $41 /mo

FULLY INSTALLED

$8,500

Includes the Q.HOME CORE battery + inverter, permitting and professional installation.

10 kWh · 9 kWh usable | 12-yr warranty | Indoor/outdoor

More capacity (to 20 kWh) or optional backup? Ask for pricing.

Book a free bill review.

Plus a free compatibility check for your existing solar. No pressure.

*Example based on an actual California homeowner under NEM 3.0 (source: Qcells). Results vary with usage, system size and utility rates; peak hours vary by utility and rate plan. Q.HOME CORE supports AC- or DC-coupled solar; compatibility with your system is confirmed during the review. Extra battery capacity and optional backup equipment priced separately. 12-year standard warranty per Qcells Q.HOME CORE datasheet (2024). Product image: Qcells. Limited units in stock.
